

EQUIPMENT LIST

Machining and fabrication capabilities
KOLOGIX LLC | Updated September 30, 2026

Equipment inventory

Equipment category	Quantity	Description
Vertical machining centers	15	Includes 2 Haas UMC-750, 3 Haas GM-1, and 1 Haas GM-2
Lathes	10	Turning equipment
Waterjets	3	Waterjet cutting
Wire EDM	1	Wire electrical discharge machining
Large laser cutter	1	Laser cutting
Router	1	Haas 408; retained from prior equipment list
Press brakes	2	Amada HS1303; retained from prior equipment list
TOTAL MACHINES	33	Includes router and two press brakes

Planned additions | Expected by October 14, 2026

3 Haas VF-4 vertical machining centers and 2 additional lathes.

Upon addition: 18 vertical machining centers, 12 lathes and 38 machines overall. Planned equipment is excluded from the current inventory totals above.

Additional manufacturing capabilities

Sheet metal: cutting and forming of complex sheet metal components.

MIG welding: structural and pipe welding in steel, stainless steel and aluminum.

TIG welding: steel, stainless steel and aluminum.

Weld positioning: automated rotary tables for loads up to 3,000 lb, as previously reported.

Inventory notes

Current quantities reflect the September 30, 2026 company update; router and press brake quantities are retained from the prior list. The 15 current vertical machining centers include 2 Haas UMC-750, 3 Haas GM-1 and 1 Haas GM-2. Detailed capacities and remaining model quantities await confirmation. Welding equipment is excluded from machine totals.
